Hassan Tahrioui

Technical Lead · Senior Full-Stack Engineer

Morocco · Remote (CET-aligned) tahrioui.hsn@gmail.com tahrioui.me linkedin.com/in/tahrioui-hsn github.com/tahriouihsn

SUMMARY

Technical lead and senior full-stack engineer with 9+ years building commercial web software in Laravel, Next.js and Node. Since 2021, lead developer for a group of four football ticketing and travel brands, responsible for technical direction, releases and production across shared Next.js and Strapi platforms with live payments and multilingual SEO. Founder of Tracefox, a live checkout-testing SaaS I built solo. Open to the right long-term role with a remote-first product team.

EXPERIENCE

Lead Full-Stack Developer, VisitFootball group 2021 – Present

VisitFootball · Voetbaltrips · Voetbaltickets.nl · TrustedSeats

- Lead development across four football ticketing and travel brands built on Next.js, Strapi v4, Nuxt, PostgreSQL and Redis.
- Own technical direction, the release workflow across development, staging and production, and production troubleshooting.
- Review and coordinate other developers' work; work daily with product, operations, design and SEO specialists.
- Hands-on across storefronts, checkout and payments, authenticated APIs, multilingual content and order automation.

Founder & solo developer, Tracefox 2025 – Present

tracefox.co

- Designed, built and launched a SaaS for automated checkout testing, live with a free plan and three paid tiers.
- Next.js and TypeScript, Playwright-driven Chromium runs, scheduled background jobs and a Chrome extension recorder.

Full-Stack Developer, Inbetween 2020 – 2022

OpenMatch

- Built OpenMatch, a two-sided job platform with AI-assisted resume building, job matching, recruiter tools and Stripe subscriptions, using Nuxt and Vue.

Full-Stack Developer, e-Coopera 2019 – 2021

- Built the company's e-commerce website from scratch with Laravel and Nuxt, handling both backend and storefront.

Full-Stack Developer, FCPO 2020

- Built multiple client websites from scratch for this web development agency, handling frontend and backend on each.

Full-Stack Developer, Audit Action Plus 2019

- Built an ERP for the company from scratch, handling both frontend and backend.

SELECTED PROJECTS

Tracefox: Live SaaS for automated checkout testing, built solo: scheduled real-browser runs, step-level failure reports, agency workspaces and paid plans.

VisitFootball group: Multi-brand ticketing and travel platforms: shared Next.js codebase, Strapi backends, checkout and payments, multilingual SEO and order automation.

OpenMatch (Inbetween, 2022): Two-sided job platform with AI-assisted resume building, job matching, recruiter tools and Stripe subscriptions (Nuxt, Vue).

L'Moniteur: Booking platform connecting learner drivers with driving instructors across Morocco (Laravel, Flutter).

7eco24: High-volume classifieds site with 400k+ ads (Laravel).

Momentoo: Focus app that reached 2nd Product of the Day on Product Hunt (Vue).

Freelance: 100% Job Success Score on Upwork.
